

### Workshop General Chair

Dr. Sajal Das, Univ. Texas at Arlington, USA

### Workshop Program Co-Chairs

Dr. Zhen Jiang, West Chester Univ., USA

Dr. Xiao Chen, Texas State Univ., USA

### Program Committee

- A. Agah, West Chester Univ., USA
- R. Beyah, Georgia State Univ., USA
- A. Bourgeois, Georgia State Univ., USA
- S. Chen, Florida International Univ., USA
- Z. Chen, Beijing University, China
- B. Bragovi, Create-Net, Italy
- Y. Guan, Iowa State Univ., USA
- T. He, University of Minnesota, USA
- D. Kundor, Texas A&M Univ., USA
- M. Li, Shanghai Jiaotong University, China
- Q. Li, College of William and Mary, USA
- D. Liu, Univ. of Texas, Arlington, USA
- J. Liu, Wayne State University, USA
- Y. Liu, HK Univ. of Science and Technology, HK, China
- W. Lou, HK Polytechnic Univ., HK, China
- F. Kargl, Ulm Univ., Germany
- S. Mishra, Univ. of Colorado, USA
- C. Nita-Rotaru, Purdue University, USA
- G. Noubir, Northeastern Univ., USA
- S. Olariu, Old Dominion Univ., USA
- B. Preneel, Katholieke Universiteit Leuven, Belgium
- D. Qiao, Iowa State University, USA
- H. Shen, University of Arkansas, USA
- H. Song, Frostburg State Univ., USA
- A. Weimerskirch, Escrypt Inc. - Embedded Security, USA
- N. Xiao, National Univ. of Defense Technology, China
- Y. Xia, University of Florida, USA
- S. Yang, Rensselaer Polytechnic Institute, USA
- W. Zhang, Iowa State Univ., USA

### Important Dates

- Manuscript Due (extended): 12/21/2007
- Notification (extended): 2/18/2008
- Final Due: 3/9/2008
- Workshop Date: 6/20/2008
- Full Version Due: 7/25/2008

### Steering Committee

Jie Wu, National Science Foundation & Florida Atlantic University, USA

### CALL FOR PAPERS

## The 1st International Workshop on Wireless Security and Privacy (WiSP'08)

<http://www.cs.wcupa.edu/~zjiang/wisp08.htm>

June 20, 2008, Beijing, China

held in conjunction with

[The 28<sup>th</sup> International Conference on Distributed Computing Systems \(ICDCS 2008\)](#)

### Theme and scope:

Wireless networks have experienced an explosive growth during the last few years. Nowadays, there is a large variety of networks spanning from the well-known cellular networks to non-infrastructure wireless networks such as mobile ad hoc networks and sensor networks. Security issue is a central concern for achieving secured communication in these networks. This one day workshop aims to bring together researchers and practitioners from wireless and sensor networking, security, cryptography, and distributed computing communities, with the goals of promoting discussions and collaborations. We are interested in novel research on all aspects of security in wireless and sensor networks and tradeoff between security and performance such as QoS, dependability, scalability, etc.

### Topics of interest:

We are seeking papers that describe original and unpublished contributions addressing various aspects of secured wireless/sensor networks. Topics of interest include, but are not limited to:

- Authentication and Access Control
- Cryptographic Protocol
- Experimental Studies
- Key Management
- Information Hiding
- Intrusion Detection and Response
- Privacy and Anonymity
- Secure Localization and Synchronization
- Security and Performance tradeoff
- Security Policy and Enforcement Issues
- Security Protocols Design, Analysis and Verification
- Secure Routing/MAC
- Surveillance and Monitoring
- Trust Management

### Paper Submission:

Submit an electronic version of manuscripts, not exceed 6 pages (IEEE Computer Society proceedings Manuscripts: two columns, single-spaced) to [zjiang@wcupa.edu](mailto:zjiang@wcupa.edu), including an abstract, 3-5 key words, the corresponding author's e-mail, figures, and references (<http://www.ieee.org/portal/pages/pubs/transactions/stylesheets.html>). Prepare your papers in **PDF** file only. Each submitted paper will be peer reviewed and the comments will be provided to the authors. Accepted papers will be published by IEEE Computer Society Press, as proceedings of the ICDCS'08 workshops. Submission of a paper should be regarded as an undertaking that, should the paper be accepted, at least one of the authors will register and attend the workshop to present the work.

### Special Issue:

We also plan to publish the full versions of the manuscripts as a special issue of **International Journal of Security and Networks (IJSN)**. Selected authors will be invited to prepare articles after the workshop, with an additional review phase by the workshop committee and journal editors.
