## CALL FOR PAPERS

# The 4th IEEE International Workshop on Wireless and Sensor Networks Security (WSNS'08)

<http://www.cs.wcupa.edu/~zjiang/wsns08.htm>

September 29, 2008, held in conjunction with

[The 5th IEEE Intl. Conf. on Mobile Ad-hoc and Sensor  
Systems](#)

Atlanta, Georgia, USA

### Theme and scope:

Wireless networks have experienced an explosive growth during the last few years. Nowadays, there is a large variety of networks spanning from the well-known cellular networks to non-infrastructure wireless networks such as mobile ad hoc networks and sensor networks. The security issue is a central concern for achieving secured communication in these networks. This one day workshop aims to bring together researchers and practitioners from wireless and sensor networking, security, cryptography, and distributed computing communities, with the goals of promoting discussions and collaborations. We are interested in novel research on all aspects of security in wireless and sensor networks and their cost-effective solutions.

### Topics of interest:

We are seeking papers that describe original and unpublished contributions addressing various aspects of secured wireless/sensor networks. Topics of interest include, but are not limited to:

- Attacks and Countermeasures
- Authentication and Access Control
- Computer-Aided Tool for Security
- Cross-layer Design for Security
- Cryptographic Protocol
- Denial of Service (DoS)
- Key Management
- Information Hiding
- Intrusion Detection and Response
- Malicious Behavior Detection and Analysis
- Privacy and Anonymity
- Secure Localization and Synchronization
- Security and Performance tradeoff
- Security Policy and Enforcement Issues
- Security Protocols Analysis, Design, and Proof
- Secure Routing/MAC
- Surveillance and Monitoring
- Trust Establishment and Management

### Paper Submission:

Submit a full paper of about 6 pages (IEEE two columns, single-spaced format), including figures and references, using 10 font size, and number each page. Use the Guideline available at <http://www.cse.psu.edu/IEEEMASS08/>. Each submitted paper will be peer reviewed and the comments will be provided to the authors. Accepted papers will be published in the proceedings of the MASS'08. Please submit your paper to EDAS (<https://edas.info/newPaper.php?c=6431&>). Submission of a paper should be regarded as an undertaking that, should the paper be accepted, at least one of the authors will attend the workshop to present the work. A full conference registration is needed and will include the ability to attend any workshop and regular conference session.
